Subcontractor insurance gap report

Sample report
Fictional companies

Prepared for	Certificates reviewed	Review date	Checked against
Harbor & Main Builders	10	October 9, 2026	Your standard subcontract, Exhibit C

1 Stop work **3** Need action **6** Compliant

Findings, highest risk first

Tri-Valley Roofing Co. — Roofing

Required	Workers' comp, statutory; waiver of subrogation (WC 00 03 13)	Found	Workers' comp policy WC-2093371 expired 09/26/2026. No renewal certificate on file. Waiver endorsement not attached.
Why it matters	The crew is on site without workers' comp. An injury claim can fall back on you as the general contractor.	Next step	Hold site access. Notice drafted to Bellmont Underwriting Services requesting the renewed certificate and waiver.

Lone Pine Framing LLC — Framing

Required	Additional insured, ongoing and completed operations (CG 20 10 and CG 20 37 or equivalent)	Found	CG 20 10 attached. No completed-operations endorsement in the PDF.
Why it matters	Claims that surface after handover, such as framing defects, won't reach this sub's policy.	Next step	Notice drafted to Mesa Ridge Insurance Group requesting the CG 20 37 page.

Clearline Glass & Glazing — Glazing

Required	General liability $1M each occurrence, $2M aggregate	Found	$1M each occurrence, $1M aggregate. No umbrella listed.
Why it matters	The aggregate is shared across all of this sub's jobs. One claim elsewhere can leave little or nothing for yours.	Next step	Notice drafted to Northfork Agency requesting a $2M aggregate or an umbrella policy.

Brightwire Electric Inc. — Electrical

Required	All policies in force for the duration of the work	Found	General liability and auto renew 10/30/2026, in 21 days. Their scheduled work runs into December.
Why it matters	Without a renewal certificate, they'll be uninsured on your site from October 30.	Next step	Renewal request drafted to Copperline Insurance, with a follow-up set for 10/23.

Compliant, no action needed

Northgate Mechanical Inc.	HVAC	**Stonebridge Concrete LLC**	Concrete
Redline Fire Protection	Fire sprinkler	**Keystone Drywall & Acoustics**	Drywall
Summit Steel Erectors	Structural steel	**Pioneer Plumbing Co.**	Plumbing

Each certificate and its endorsement pages were checked against your requirements, and every finding was reviewed by a person. This is a sample. All companies, brokers and policy numbers are fictional. CertiFlow reviews documents against your requirements; it is not an insurance agency and does not give legal advice.
